

Credit Management Advisory & Debt Recovery

Single Debt or Portfolio Purchase - National or International

CCICM provides a variety of services within the debt recovery industry. We work for governments, The NHS, local authority or privately-run care homes, Banks, Asset Based Lenders, Accountants, Private Equity Houses, multinationals, and SME's, who all rely on us to recover their UK and overseas debt.

Our compliance regime ensures strict adherence to regulatory standards all over the world. This continues to be important, even when you are considering selling your debt portfolio - your debt remains in good hands and we continue to safeguard your reputation after the purchase.

We have a track record of buying "rump end" portfolios and single debts, of any value. We are particularly active with insolvent estates where a process is rapidly approaching expiry and the cost of extension outweighs the benefit.

We will assess every debt purchase opportunity fairly and transparently and will always be fair and reasonable in our pricing.

Graeme Harley +44 7427 240 795 graeme.harley@ccicm.com
Witold Chojnowski on +44 7979 518 112 witold@ccicm.com

Benefits of using our services:

- Competitive pricing assessed on a case by case basis
- Consideration given to any size of portfolio and even single debts either UK or overseas based.
- Quick decisions
- Compliant and always safe custodians of your reputation long after a sale has been agreed and recovery progressed.
- Save costs by concluding an insolvency early, rather than wait for an ongoing rump end collect out.
- Fair and Ethical approach
