

## OUTSOURCING

# Credit Management Advisory & Debt Recovery

## Outsourced Credit Management Services

This service is focused on businesses large and small. As a large business, you may want to “champion challenge” your in house Credit Management team to ensure that they are performing at an optimum level. As a small business, you may find the Credit management and debt recovery is taking your eye off production and running the business. CCICM is a safe pair of hands to entrust this very important task to.

Controlling, collecting, and processing payments is key to all businesses irrespective of size. We will work with you and you should consider us to be an integral part/member of your operational team.

Our analytics will identify trends, review and analyse these, and thus providing with real-time data best-performing customers and those that are not. Where can you afford to increase sales and where is best to hold back.
